

Madeleine Clamorgan and the origins of Sebastien Clamorgan's noble roots

Descrizione

In addition to his career as an entrepreneur and founder of the global consulting and investment firm Venia International, Sebastien Clamorgan is also known for his noble roots, as he is the great grandson of Madeleine Clamorgan, an important French literate, woman of culture, and intellectual who dedicated her life to culture and education. Madeleine founded several Catholic schools between the end of the nineteenth and the beginning of the twentieth century, and, for this reason, she is considered to represent an example of passion towards initiative and culture.
